Item 13.1

#### Summary

In response to receiving the varied Performance Improvement Order (PIO), Council adopted their Strategic Finance and Governance Improvement Plan at the extraordinary June 2024 meeting.

The varied PIO requires Council to provide bi-monthly reports to both the elected body and the NSW Office of Local Government (OLG) on the status of the implementation of all actions in the PIO, this reporting must commence by 24 July 2024.

To satisfy this requirement, a copy of the Strategic Finance and Government Improvement Plan was provided to the OLG following the extraordinary June 2024 meeting.

Bi-monthly implementation status reports have now commenced and will be provided to the elected body and the OLG August, October, December, February, April and June.

Given the NSW Local Government election timeframe and associated induction program, a status report was not provided to the new Council's first meeting in October. The October and December update is being provided now.

#### Financial implication

Some of the work required to be undertaken has been included in the draft 2024-25FY budget as there are costs associated with completing the activities of the updated Plan.

#### Risk implication

There is a risk that if Council does not comply with the PIO and improve its operating position that further ministerial interventions will be imposed. Continuing to fail to meet Office of Local Government benchmarks for financial sustainability (performance ratios) is not an acceptable outcome.

There is also a risk that Council will perceive an opportunity to make different decisions or make new commitments beyond what Council is capable of accommodating given the status and the requirements of the PIO. This PIO is proposed to manage that risk by spanning this and the future Council.

Item 13.1

### **Summary**

In response to receiving the varied Performance Improvement Order (PIO), Council adopted their Strategic Finance and Governance Improvement Plan at the extraordinary June 2024 meeting.

A copy of the varied PIO was placed on Council's website in accordance with section 438D(2) of the *Local Government Act 1993*.

The adopted Strategic Finance and Government Improvement Plan has been prepared to fulfil the requirements of the varied PIO. This Plan responds directly to the requirements of the varied PIO, including compliance with the cycle of reporting to Council and the Office of Local Government.

At all times, the Strategic Finance and Government Improvement Plan demonstrates how each of its actions relates to the actions of the varied PIO. The Plan incorporates the matters identified by the Audit Office of NSW's Management Letter for the 2022-23 Financial Year Audit, the 2024 Todd Hopwood 'Report on Review of Kiama Municipal Council Governance Arrangements' and Council's submission to the Federal Government's inquiry into Local Government sustainability.

The Strategic Finance and Government Improvement Plan provides the background for Council's current financial situation, defines financial sustainability and identifies the following eight levers for achieving financial sustainability:

1. Sustainable cash reserves and responsible borrowing
2. Optimised revenue opportunities
3. Well planned assets
4. Reviewed and efficient service landscape
5. Investment in transformation
6. Robust financial management
7. Prioritising advocacy and partnerships
8. Ensure good governance.

---

The 40 or so outstanding SIP2 actions have been incorporated into the attached Plan. Where possible these actions have been consolidated and rationalised. Rather than focusing on operational outputs, the updated Plan seeks to identify and establish organisational outcomes for achieving financial sustainability.

In a similar fashion to Council's Delivery Program and Operational Plan, each Strategic Finance and Government Improvement Plan action has been assigned to an individual business unit.

### **Reporting and transparency**

The varied PIO requires Council to provide bi-monthly reports to both the elected body and the NSW Office of Local Government (OLG) on the status of the implementation of all actions in the PIO, this reporting must commence by 24 July 2024. In order to satisfy this requirement, a copy of the Strategic Finance and Government Improvement Plan will be provided to the OLG following this meeting by the Implementation Team. The Implementation Team will continue to liaise with the OLG on a regular basis to ensure the State Government is comfortable with the approaches being taken to achieve financial sustainability.

The varied PIO also requires monthly reports on the Council's financial position to be reported to the elected body. The progress on all other actions of this Plan need to be reported to the elected body bi-monthly.

The monthly financial reporting will commence at Council's ordinary July 2024 meeting and the bi-monthly reporting will commence at the ordinary August 2024 meeting. No reporting will occur during September 2024 due to the NSW Local Government Election caretaker period.

All Strategic Finance and Governance Improvement Plan actions have been loaded into Council's Pulse software solution to enable regular reporting to occur within a regulated system rather than via excel spreadsheets.

Some actions require the preparation of new/updated Council policies, reviewing level of services, reviewing operating models and master planning key catalyst sites. Council will undertake individual community consultation process, in line with the adopted Community Engagement Strategy, for these projects.

Council is clear on the actions it will take over the next financial year to move towards financial sustainability. Actions for years 2 and 3 are somewhat unclear at this stage, given the evolving nature of Council's financial situation and its progression of the Strategic Finance and Governance Improvement Plan actions. It is therefore proposed that the Strategic Finance and Governance Improvement Plan be updated on a six-month basis. As some actions are completed, consequently actions may arise.

As part of the six-month review the Strategic Finance and Governance Improvement Plan will be updated to provide greater detail on the timeframe for implementing specific actions (i.e. quarterly rather than yearly) and the impact of these actions (i.e. was savings/income they result in).
